### **EXAMINER'S AMENDMENT**

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest a method for the administration of a macromolecular pharmaceutical substance to a patient, the method comprising delivering a bolus of the substance intradermally via a needle inserted into a patient's skin so that the needle penetrates the intradermal compartment wherein the needles outlet depth and exposed height of the outlet are located within the intradermal compartment, wherein the outlet has an exposed height of about 0 to 1 mm, so that the substance is delivered into the intradermal compartment and distributed systematically exhibiting a higher C<sub>max</sub> and a shorter T<sub>max</sub> of the substance, by comparison with subcutaneous administration of the substance at an identical dose and rate of delivery.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
